Prescription Importation Update

Safe and Affordable. Now.

New Bill Threatens Access to Your Prescription Importation

Newly Introduced DRUGS Act to Deny Millions Access to Imported Meds

Sneaking a new bill in at the end of the year, Senators Marco Rubio (R-FL) and Amy Klobuchar (D-MN) and Representatives David McKinley (R-WV) and Bobby Rush (D-IL) introduced the DRUGS Act, legislation that would rob you and [millions of Americans](#) of daily medications that keep them healthy and alive. Worse yet, the legislation is backed by Big Pharma front groups.

[Take Action Now, Tell Congress No to the DRUGS Act](#)

The Big Pharma special interests supporting the DRUGS Act [claim](#) that the bill would address illegal sales of opioids online; however, the bill fails to even mention the words opioids or fentanyl. Instead, the bill targets 'non-domestic' pharmacies - international pharmacies that [millions of Americans](#) depend on for safe and affordable drugs. If enacted, the bill will terminate access to the websites that millions have used to access their safe meds. Dead links and warning messages from U.S authorities will replace web access to trusted online international pharmacies.

The Big Pharma groups backing the DRUGS Act habitually and shamelessly [exploit the opioid crisis](#) to [attack prescription importation](#). What is most appalling, one endorser [took \\$1 million](#) from [Purdue Pharma](#), the maker of the highly addictive opioid painkiller OxyContin.

[Take Action Now, Tell Congress No to the DRUGS Act](#)

Americans like you rely on licensed international pharmacies - that require valid prescriptions and don't sell controlled substances. Such verified pharmacies afford millions of Americans their prescription medicines by offering the same brand-name drugs at savings of 50 to 90 percent.

The Campaign for Personal Prescription Importation has been busy raising alarms against the DRUGS Act and the terrible impact it will have on Americans who need access to affordable prescription drugs now more than ever.

In Case You Missed It:

CPPI Calls on Califf to Deliver Safe and Affordable Imported Medicines for Americans

Dr. Robert Califf has been nominated to lead the U.S. Food and Drug Administration (FDA) and could play a major role in delivering Americans access to lower prescription drugs costs. We hope that Dr. Califf’s past [ties to pharmaceutical companies](#) do not cloud fair consideration of allowing importation of safe and affordable medicines from Canada. [Read More](#)

While Rural Pharmacies Close, Americans Find Savings at Online Canadian Pharmacies

Local pharmacies, once widespread in large cities and rural communities alike, are disappearing from many areas of the country, leaving an estimated 41 million Americans in what are known as drugstore deserts, without easy access to pharmacies, reports the Washington Post. [Read More](#)

Will The Build Back Better Legislation Solve High Rx Prices?

The Build Back Better legislative package includes important but limited steps to lower prescription drug costs. Americans still need access to safe and affordable medicine that only expanded personal prescription importation from Canada offers. [Read More](#)

About the Campaign for Personal Prescription Importation

CPPI is a national nonprofit patient advocacy organization that fights for Americans' access to safe, affordable prescription medications from Canada for personal use. Tens of millions of Americans – especially the elderly and others on fixed incomes – struggle to pay the extremely high price of prescription medications in the U.S. We are here to be their voice.

Millions of Americans use licensed Canadian pharmacies annually, to purchase their daily prescription medications at an affordable price. We believe that all Americans have a right to affordable medications. It is time to change the current U.S. policy on this issue to provide immediate access to life-saving medications, taken daily for chronic health conditions, at affordable prices.
